

We are the single source, Value Added financing choice for your fleet.

In working with Municipal Funding Solutions you will find that we provide a convenient solution for you to acquire equipment and vehicles from multiple vendors. Some finance companies only finance the vehicles and will not let you add any other equipment to the financing transaction. Our Value Added proposition is what separates us from the others. You can bundle all of your equipment needs into one simple lease. We help you acquire all the necessary equipment from public safety vehicles to computers, to communication devices, etc. You choose the vendor and the brand of equipment you like. No surprises, we make it easy. Municipal Funding Solutions, LLC will work with you and your budget by providing a transaction with a customized term from 3 to 10 years at a very competitive rate.
